

## FLU SEASON IS HERE

**It is more important than ever to get members vaccinated against the flu.** Please strongly recommend and offer the flu vaccine to your patients. Your recommendation makes a huge difference in a patient's decision to get vaccinated. Flu vaccination is especially important for people at high risk for flu-related complications. Even for patients who are not at high risk for complications, it is anticipated that the co-circulating COVID-19 virus means it is more important than ever for us to increase flu immunizations in all of those who can be vaccinated.

### Flu Vaccine Coverage

- One flu vaccine is covered for members 19 years of age and older through Clear Spring Health prescription drug benefit and the medical benefit.
- Flu vaccines administered by pharmacies do not count against a member's monthly prescription limit, and there is no copay to members.
- Members can receive the vaccine at any pharmacy.

### Below is the list of CPT and HCPCS Codes to be used when billing for the FLU Vaccine:

- **G0008** — Administration of influenza virus vaccine
- **90662** — Influenza virus vaccine (IIV), split virus, preservative free, enhanced immunogenicity via increased antigen content, for intramuscular use
- **90672** — Influenza virus vaccine, quadrivalent, live (LAIV4), for intranasal use
- **90674** — Influenza virus vaccine, quadrivalent (ccIIV4), derived from cell cultures, subunit, preservative and antibiotic free, 0.5 mL dosage, for intramuscular use
- **90682** — Influenza virus vaccine, quadrivalent (RIV4), derived from recombinant DNA, hemagglutinin (HA) protein only, preservative, and antibiotic free, for intramuscular use
- **90685** — Influenza virus vaccine, quadrivalent (IIV4), split virus, preservative free, 0.25 mL dosage, for intramuscular use
- **90686** — Influenza virus vaccine, quadrivalent (IIV4), split virus, preservative free, 0.5 mL dosage, for intramuscular use
- **90687** — Influenza virus vaccine, quadrivalent (IIV4), split virus, 0.25 mL dosage, for intramuscular use
- **90688** — Influenza virus vaccine, quadrivalent (IIV4), split virus, 0.5 mL dosage, for intramuscular use

- **90694** — Influenza virus vaccine, quadrivalent (allV4), inactivated, adjuvanted, preservative free, 0.5 mL dosage, for intramuscular use
- **90756** — Influenza virus vaccine, quadrivalent (cclV4), derived from cell cultures, subunit, antibiotic free, 0.5 mL dosage, for intramuscular use
- **Q2039** — Influenza virus vaccine, not otherwise specified

#### **Process for Authorizations:**

- The seasonal flu vaccine **does not** require authorization.
- Any additional flu vaccines **do** require authorization and may be covered, if medically necessary.

Please fax your request for additional flu vaccines to the Utilization Management Department Fax #: 866-613-0157
